The goal of Empowered Youth Programs is to develop and nurture academic and social excellence in children and adolescents. In an effort to obtain funding to sustain our work, it is extremely important that we collect demographic information on students and families we serve. In addition, we will also be collecting information regarding the type of services that we provide and the number of students/families that take advantage of the services offered. This will also enable use to be plan and implement the services that students and families need.
